

Your Techem Portal: Manage buildings conveniently and securely.

Quick and easy access to practical services and up-to-date information at any time: the Techem internet portal makes this possible in the next year under www.techem-me.com. A great variety of applications facilitate your daily work and help you to save time and money. All you need is your Techem customer ID number, your password and an Internet connection – and then you will be able to manage your property even more efficiently, always have up-to-date information at your fingertips and save valuable time as well.

www.techem-me.com

Archive Online

In Archiv online all data relevant to billing, such as total and individual accounts and all service bills are available for quick, easy and safe online retrieval.

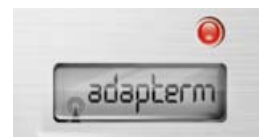

Reading Value Display

You can retrieve your energy meter and water meter readouts online at any time, also for the past and on a daily basis.

Techem Monitoring

Get a clear overview with accurate information about the energy and water consumption of your real estate.

adapterm Energy Saving System

Save energy simply and at low cost – 10% on average. The adapterm cockpit integrated in the Techem portal keeps you informed online about energy savings in central heating circuits and reductions in CO₂ emissions realised on your property.

Your Info Center

Your Info Center provides you with important, up-to-date information, such as answers to questions frequently asked by residents, contract forms, legal texts and product information.
